OUR STORY

The Siskiyou Climate Collaborative (SCC) is working to help a broad community network pursue planning and funding opportunities, that will better prepare us for the wildfires, droughts, and extreme climate events that bring devastation, with greater intensity each year.

PROJECT PARTNERS

The Collaborative unites partners from natural resources, agriculture, outdoor recreation, workforce and tribal expertise. Collaborative partners are committed to inclusive and equitable planning to seek solutions for Siskiyou County's diverse working landscape.

- Siskiyou Economic Development Council
- Shasta Valley Resource Conservation District
- UC Cooperative Extension, Siskiyou
- Siskiyou County SMART Workforce Center
- Siskiyou Outdoor Recreation Alliance
- Karuk Tribe Department of Natural Resources

OUR WHY

The Siskiyou Climate Collaborative is one of six awardees to receive Round One, Regional Climate Collaborative funding, provided by the California Strategic Growth Council. The competitive award aims to help under-resourced communities across California invest in community-led capacity building to access statewide public and other grant moneys for climate resiliency planning and projects.

YEAR ONE (2023/2024)

- Proactive, broad, community-based outreach, listening sessions, and community engagement.
-

YEAR TWO (2024)

- Assemble, organize and archive community input results.
 - Populate and maintain an ongoing inventory of local climate resiliency projects/efforts.
 - Develop a framework and subsections for a Climate Resiliency Plan (CRP).
 - -i.e. Project overview, goals and objectives, examples of lived experiences, notable projects and strategies, data/analysis, prospective planning and strategies, possible funding sources, stressors, challenges, tools/resources/support
-

YEAR THREE (2025)

- Provide a Technical Assistance Network.
- Assist communities with project planning, funding identification, and project implementation.
- Provide lasting tools and resources.
- Publish a Climate Resiliency Plan (CRP).
- Identify workforce development and anti-displacement strategies.
- Launch a capacity building toolbox.
